

A top-down view of a child sitting on a light-colored mat on a grey floor with a white circular ripple pattern. The child is eating from a black bowl with chopsticks. A wooden bowl sits on a bamboo mat next to them. The floor is decorated with scattered autumn leaves, flowers, and green lily pads. A plant branch hangs from the top right.

Drops
Un estanque idílico
sobre el que poder caminar
An idyllic pond you can walk on

Drops es el nombre de la primera colección de baldosas diseñadas por MUT Design para nosotros.

Un nuevo concepto de baldosa hidráulica adaptada a las tendencias actuales.

Formada por 4 diseño y su cenefa permite al cliente crear “estanques” acorde a sus gustos personales.

El mundo animal inspira esta primera colección que representa los estanques japoneses usados desde la antigüedad para dar armonía y tranquilidad a los hogares.

Drops is the name of the first collection of cement tiles designed by MUT design for our company.

A new concept of encaustic cement tile floors that reinvents the late nineteenth century flooring technique to suit current trends.

That collection consists of 4 different tiles as their border to decorate each room according to personal tastes.

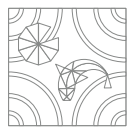

The animal world inspired this first collection that draws on Japanese fish ponds used since antiquity to provide homes tranquillity and harmony.
